MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Parking - Shuttle Service

REFERENCE : Memo to Mr. McCone fr C. P. Cabell dtd 5 Dec 61,
same subject

1. In the referenced memorandum (attached), General Cabell advised the Director that he thought it feasible to establish some sort of bus service from the more remote areas of all parking lots, and that he would ask the Deputy Director (Support) to study this possibility in further detail.

2. In the course of our study, the General Counsel raised a question as to whether we could legally provide this service to our employees. He has discussed the problem informally with members of the staff of the Comptroller General who reaffirmed that all precedents, including the Pentagon, are against furnishing such transportation. We have made a comparison between our parking distances and the situation at the Pentagon. The attached tabulation shows that our parking spaces are considerably more convenient over-all than those at the Pentagon. In addition to being an expensive service, the probability that the Comptroller General would rule against it is so great that our General Counsel advises against seeking a formal opinion.

3. If you agree, I will not pursue the matter further.
